

Plus Size Clothing for the Larger Woman

Plus Size Clothing for the Larger Woman

 Being a plus size woman doesn't have to mean you can't dress fashionably. Many stores now have a "Women's" section, or a "Plus Size" section to accommodate your special needs. Plus size clothing sites are very popular for buying plus size clothing online. One of the best sites is <http://www.BeautifulPlusSizes.info>.

 Some tips to remember when shopping for plus size clothing:

 1. Don't buy items with large horizontal stripes, as they will only make you look larger.

 2. If you have large hips, choose a longer shirt that hits at the center of the buttocks. Cutting the hips in half give the illusion of smaller hips.

 3. Don't choose large wild prints.

 4. Black makes you look smaller, white makes you look bigger.

 5. Cargo pants are a no-no, as they make you look larger.

 6. V neck gives a slimming effect.

 7. Sleeveless tops should be avoided.

 8. A-line skirts and dresses give a slimmer look.

 9. Don't tuck in your shirts, this only adds bulk to the waist.

 10. Slash pockets are the best for making you look smaller.

 11. Empire dresses and tops (In fashion now) are very slimming, and give you the appearance of being taller as well as calling attention to you chest.

 12. Jeans are fine, but stick with the dark denim.

 13. Baggy clothes only make you look larger! Wear clothes that fit.

 14. Skirts that hit at the knee are best, mid calf length the worst!

 Whatever your size, you can be attractive and stylish if you stick to these basic rules to looking slimmer.
